PROFILE

Detail-oriented civil engineer with professional experience since 2021 in structural design and analysis, structural inspection, QA/QC review and construction supervision. Skilled in ProtaStructure, AutoCAD and Orion, and experienced in project controls with Primavera P6 and performance dashboards. I interpret structural drawings and specifications precisely, advise on materials and repairs, and work closely with contractors, clients and authorities to deliver safe, compliant structures on time and within budget. I am looking for a structural engineering role where I can apply my technical and project management skills in a collaborative, quality-focused team.

WORK EXPERIENCE

Project Engineer

Redgrey Associates, AMCE Site, Abuja | Nov 2022 – present

- Conduct structural inspections to verify the integrity of buildings, and advise on necessary repairs or potential demolition
- Inspect structural reinforcement and layouts visually against project specifications, and ensure structural elements are installed correctly
- Interpret and analyse construction blueprints and structural drawings
- Assess and review quality assurance and quality control (QA/QC) documentation
- Provide expert recommendations on suitable construction materials
- Supervise construction of river retaining walls and cross culverts
- Oversee installation of stormwater drainage systems
- Monitor project progress and produce detailed reports
- Liaise with local authorities to ensure regulatory compliance

Assistant Project Manager

Coplan Associates, AATC Site, FCT-Abuja | Jan 2021 – Nov 2022

- Drafted the detailed project programme of works and the programme data computations behind the project performance dashboard
- Built the project performance dashboard from scratch and kept it updated with progress data
- Led cross-functional teams in executing project plans, contributing to a 20% increase in project efficiency
- Coordinated timelines and deliverables, ensuring on-time completion of project milestones
- Gave regular progress updates to stakeholders and addressed their concerns
- Introduced project management best practices to streamline processes

Student Intern (SIWES)

Shams Consultants Ltd, Jabi, Abuja | June 2019 – Nov 2021

- Managed site construction activities, including earthworks, grading and utility installation, in line with specifications and deadlines
- Carried out regular site inspections to monitor progress, identify issues and implement corrective actions for quality and safety
- Worked with project team members, contractors and clients to review construction plans and resolve design conflicts and site challenges
- Coordinated site logistics, equipment mobilisation and material deliveries to limit disruption to ongoing operations

EDUCATION

Bachelor of Engineering (B.Eng.), Civil Engineering
Federal University of Technology, Minna, Niger State, Nigeria | 2015 – 2021

Grade: Second Class Upper

Secondary school (O'level)
Adeola Royal International School, Ogbooro, Oyo State, Nigeria | 2009 – 2015

TECHNICAL SKILLS

- Structural design, modelling, analysis and detailing: ProtaStructure, AutoCAD, Orion
- Construction project management and site management
- Project planning and controls: Primavera P6, performance dashboards
- Quantity estimation
- Geotechnical investigation
- Sustainable building practices
- MATLAB and basic Python programming
- Microsoft Office Suite

MEMBERSHIPS AND CERTIFICATIONS

- Graduate Member, Nigerian Society of Engineers (GMNSE)
- Member, International Association of Engineers (IAEng)
- Google Project Management certificate
- Project Management Institute (PMI) membership certificate (in progress)
- Student affiliations: NUESA and NICESA, FUT Minna branches

TRAINING

- Structural Design, Modelling, Analysis and Detailing using ProtaStructure and AutoCAD, Oct – Dec 2020
- MATLAB
- Python basic programming
- Artificial Intelligence Career Essentials (AiCE), ALX programme

PERSONAL SKILLS

Leadership, communication, teamwork, time management, adaptability, organisational skills, negotiation, critical thinking, conflict resolution, attention to detail, problem-solving and decision-making.

LANGUAGES

- English: C2 (proficient)
